DEC 21

Solvent Based Stripper

Description

DEC 21 is a solvent stripper particularly suitable to remove old wax coats of various original on cotto, terracotta and other surface. Excellent to remove absorption difference due to old impregnators. DEC 21 has to be used when a complete stripping is required to bring back the flooring to its original status.

Application

Spread the pure product on small part the surface (4 - 6sq.m). Let it stand for some minutes but do not allow the product to dry, then scrub vigorously with floor machine and appropriate pad or manually. Before the evaporation of DEC 21, wash the surface with a solution of COTTOSOLV diluted from 1 : 2 to 1 : 5 with water and continue to scrub. Vacuum up the residue, then rinse with a solution of DISYCOTT or DETERFUG diluted 1 : 10 with water. Rinse well with clean water until all residues has been removed.

Note : On polished marble or polished natural stone do not use COTTOSOLV, use only NEUGEL or DECERA/P.

Caution

Flammable product. Provide adequate ventilation when used in confined spaces. Avoid sources of heat and flame. Protect eyes and skin from contact. Do not ingest.

Fortuitous Leakage And Waste Disposal Method

In case material is released or spilled, clean up the most of the product. Absorb all residues with sand, sawdust etc. Store the residue in metal tank and call for a specialized company.

Coverage	: N/A
Storage	: Keep the container closed and store in cool and dry place.
Shelf life	: 1 - 2 years in original sealed packing.
Packing	: 1 lt. bottle (12 per carton) - 5 lt. tins (4 per carton).

Technical Data

Appearance	: Limpid liquid
Color	: Transparent
Odor	: Petroleum
pH	: N/A
Specific gravity (20°C)	: 0.92 gr./cc
Flashing point (ASTM D 56)	: 38°C
