ANTIOX

Antioxidant Product For Rust

STAINS REMOVED BY MEANS OF NO RUG.

Description

ANTIOX after the removal of rust stains by means of NO RUG, operates on the support in order to avoid any further rust stain forming.

Application

In order to bring to an end this kind of treatment, it is basic that, when the surface is dry (max. 3 or 5 days) to proceed with the impregnation using our stain proof product PRO TW LUX and PRO TEX.

Directions For Use :

Dilute ANTIOX from 2% to 3% in water and spray evenly on the surface. When the surface will be completely dry, proceed with the treatment using PRO TW LUX or PRO TEX.

Caution

Always make preliminary trials to test the stone resistance to the product.

Fortuitous Leakage And Waste Disposal Method

In case material is released or spilled, clean up most of the product. Store the residue in plastic tank, then send to an appropriate water conditioner or call for a specialized company.
