CRISTALFAB/C-130

Crystallizing Product For Marble, Natural Stones And Marble-Cement Agglomerates

Description

CRISTALFAB is a product for the polishing of marbles, marbles-cement agglomerates that have lost part of their sheen. The product is most suitable also for the final polishing after the grinding phase executed both with diamond pads and the traditional system. CRISTALFAB is easy to be used, it provides a high shine finish, resistance to foot traffic, slip resistance and easy ongoing maintenance.

Application

Vaporize a thin coat of CRISTALFAB on an inconspicuous area (2 - 3 sqm. surface). Proceed by means of a polishing machine with steel wool or crystallizing pad insisting even after the drying phase until the sheen has been obtained. At the end remove carefully all the steel wool residues. Shake the container well before use.

Maintenance

For daily cleaning wash the surface with ALGAFLOOR or NEUGEL. Where most of the traffic is concentrate, periodically CRISTALFAB can be re applied.

Fortuitous Leakage And Waste Disposal Method

In case material is released or spilled, clean up the most of the product. Store the residue in plastic cans and send to incinerator or call for a specialized company.

Coverage : 100 – 130 sq.m/lt.

Storage : Keep the container closed and in cool place.

Shelf life : 2 – 3 years in original sealed packing.

Packing : 1 lt. bottle (12 per carton) – 5 lt. tin (4 per carton) – 10 lt. cans

Technical Data

Appearance : Liquid
Odour : Typical
pH (solution at 5%) : 1.5 - 2.5
Specific gravity (20°C) : 1,1 gr./cc
