# LIQUID WAX

## Fast Drying Liquid Wax For Polished Marble And Granite

### Description

LIQUID WAX is a solvent base wax for polished surface, it can be used to increase the brightness and the tone or to remove the excess of PRO TW LUX or PRO TEX. LIQUID WAX can be used both for manual or for automatic application line on marble, granite, agglomerates, porcelain stoneware.

### Application

i) **MANUAL** : Apply a very thin and even coat of product by means of a cloth, brush or lambs wool. When dry buff with white pad, cloth or fine steel wool.

ii) **PRODUCTION LINE** : Apply the product by means of waxing machine or sprayer, even out the product with a brush and after about one minute buff with a pad, brush or fine steel wool pad.

### Caution

Provide adequate ventilation when used in confined spaces. Protect eyes and skin from contact. Do not ingest.

### Fortuitous Leakage And Waste Disposal Method

In case material is released or spilled, clean up the most of the product. Absorb all residues with sand, sawdust etc. Stone the residue in metal tank and call for a specialized company.

Coverage	: 20-30 sq.m./lt.
Storage	: Keep the container closed and store in cool and dry place.
Shelf life	: 1 – 2 years in original sealed packing.
Packing	: 1 lt. bottles (12 per carton)

### Technical Data

Appearance	: Opaque liquid
Colour	: Slightly amber
pH	: N/A
Specific gravity (20°C)	: 1,25 gr./cc
Flashing point (ASTM D 56)	: Not flammable
